Number of male volunteers	4
Number of female volunteers	4
Total number of national volunteers	8
Vegetarian	
Partner	The Rimóc Youth Association was founded eight years ago. The Association was founded by a group of local young people to spend their free time useful. The Association maintains its own youth community place since 2012 where youth spend their free time in the evenings. The Association is an active member of the village's life, in many ways trying beautify, to make a likeable village.
Work	<p>During the camp, participants perform multiple tasks beautifying the village to develop the quality for the VillageDay-related events.</p> <p>Some of the participants will shooting videos from the village, and make the cut material till the camp's end.</p> <p>The following tasks will be implemented by the weather, and the function of time:</p> <p>First task: a bicycle path, which connecting Rimóc and Hollókő (7km) should be cleaned to be capable of maintaining a bike tour.</p> <p>The second task: the cemetery fence have to be repainted</p> <p>Third task: to paint the walls of the local school with fairy tale characters.</p> <p>Fourth task: there's a firewall of the settlement (a shop's wall) in a frequented place to make a spectacular mural, graffiti.</p>
Accommodation and food	We will use a sport-building to accommodate the participants, in addition, they will be accommodated at family-houses.

	The village's leadership undertook the meals at the local cuisine (breakfast, lunch and dinner).
Location and leisure	The camp will be held in Rimóc. Rimóc is a small village (population 1800) in northern Hungary. One important feature of the village is the traditions: the local costumes and the local folk dance. The village is relatively complete infrastructure, there are small shops and pubs next to post office, community center, youth club, sports hall, sports changing rooms and sports fields, three museums and two rural accommodation. During the camp, participants will have opportunity to participate in programs in institutions to make them more feel homely. It also provides outing and sports fields are located in the area.
Requirements	We expect creativity in several ways (graphics and audio-visual field) from the participants. We would like participants are presenting themselves to the project who have such capabilities, and do not lock up the easier physical work, which may occur during the cycle path rehabilitate and fence painting.
