Work	The team will work on smaller tasks like the repairing of furniture, painting and interior design and outdoor on gardening, building and the construction of walking paths. Additionally also artists (drawing, painting) are welcome. Bedepusztá will start in 2018. The working team is expected to help us a few steps in the last miles towards the opening.
Accommodation and food	The team stays in a large house with two separate showers, two toilets, a livingroom with balcony, a diningroom, a kitchen and two dormitories with plenty of beds. Some days food will be cooked, other days we do the shopping on the team's request, so that the team can cook themselves.

Also, there's a camping and 14 houses for accommodation. The distance to Budapest is 95 km, busses to Budapest go every hour from the nearby Buddhist temple. The surrounding area consists of woody hills and small villages, a great place for people who like walking distances.
