# KEYS FOR CHANGE RELOADED

A HOLISTIC TRAINING FOR TRAINERS PROGRAM  
2 TRAINING COURSES IN 2024 | HOLLÓKŐ, HUNGARY

# ARE YOU A TRAINER READY TO DEVELOP?

“—

*The knowledge that is not shared is doomed to fade into oblivion, and a methodology that is not taken by others will be outdated and fossilized.*

For **15 years**, Egyesek has been designing and delivering training courses and youth exchanges in the field of European youth work based on a unique, unusual approach, springing from 2 core beliefs:

- **Holistic development** - professional improvement is only possible through personal development, as they are parallel, interconnected processes;
- **Integral learning** - we use a blend of both formal, informal, and nonformal methods, which allows us to use education fully instead of being limited by conventional labels and boundaries.

We are organizing this training for **the fourth time**, with the aim to pass on our experiences and unique methodology to a new generation of trainers.

# FOR WHO?

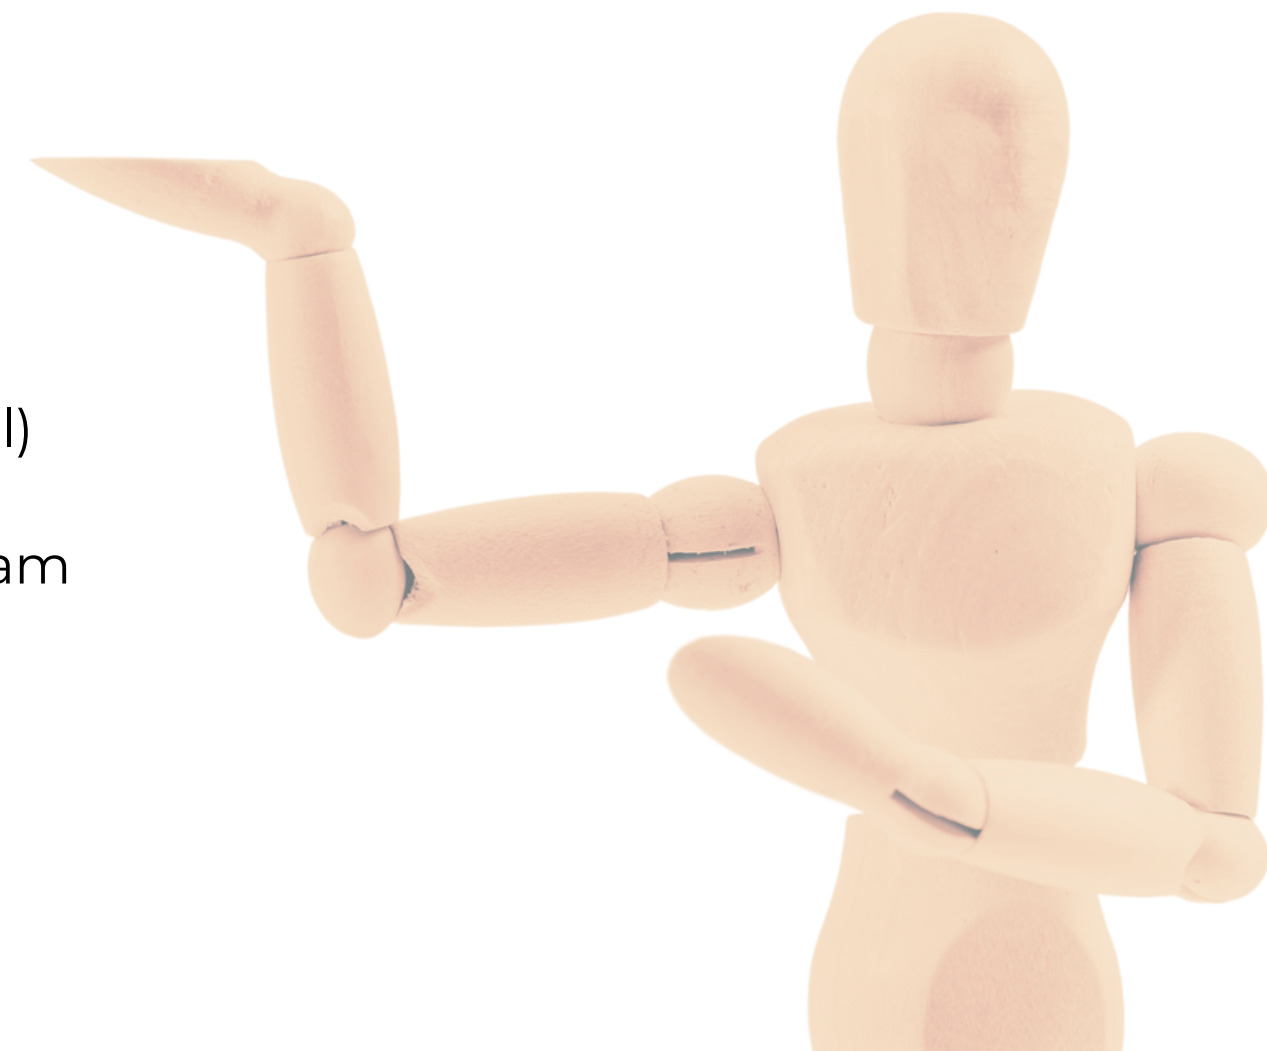

This is an exclusive project for those who are active in the field of youth trainings; particularly those who work with groups as trainers, facilitators, and educators.

Our partners for this project are the **Student Youth Council** - Georgia, **ELIX** - Greece, **EstYES** - Estonia, **IBO Italy** - Italy, **Hopeland** - Greece, **Young Researchers of Serbia** - Serbia, **Youth for Equality** - Slovakia, **YUPIE** - Portugal, **Roes Cooperativa** - Greece, **Asociatia Teatrul Experimental Senzorial** - Romania, so if you are an active youth worker or volunteer in these organisations, you have first priority to join the program.

If you are a resident in another Member States of the EU, or associated countries and partner countries, you can still apply for a founded spot. ([Click here](#) to see all countries eligible.)

## This project is for people who...

- have led youth programs\* before (\* training courses / workshops / learning activities)
  - are able to clearly communicate in English (intermediate level)
  - will facilitate activities within 6 months after the program
    - have a portfolio of youth programs they led
      - are above 18 years old

# SELECTION

We aim to gather a group of participants with **varied backgrounds** and levels of experience. This will enhance the informal learning process, through the sharing of knowledge and skills between participants.

**Priority** will be given to those who commit to the **2 training courses** as we believe that maximum learning impact will come from attending as much of the whole learning cycle as possible.

As we are aiming for a greater impact, we will also prioritize applicants who already have or are part of an **active youth organisation** where they can implement educational activities.

# PROJECT BUILD-UP

The project is built as a holistic unit, where the 3 training courses are interconnected. The first training course already took place in December 2023.

The design of the educational content is need-based: we start from a pre-designed curriculum while keeping the flexibility to accommodate your learning needs as a participant.

Each of the training courses will address a different focus.

## **TRAINING 1 - BASICS OF TRAINERSHIP**

SKILLS AND  
APPROACHES  
FOR EFFICIENT  
GROUP  
PROCESSES

## **TRAINING 2 - SELF- COACHING**

SELF-REFLECTION

DEVELOPMENT

## **TRAINING 3 - ADVANCED TRAINING**

REAL-LIFE

## BASICS OF TRAINERSHIP

In the first training, we work a lot with group dynamics and state management, practical tools and methods to work with group in an efficient manner.

## SELF-REFLECTION AND PERSONAL DEVELOPMENT

The second training focuses a lot on professional identity through personal development, how to position ourselves as trainers/facilitators/youth workers.

## ADVANCED TRAINING FOR TRAINERS

The third training already puts into real-life practice all the competences gained in the first 2 trainings. The idea is that the participants will be trained on the job, while already leading the educational program for a group of young people.

# METHODOLOGY

We work out of **integrity**: we will provide you with the same **methodology, elements**, and **learning culture** that we use in **our educational approach**. By walking the talk, we give the opportunity for you to learn by real-life examples and experience the magical effect of this methodology on learners.

**Experiential learning** or **learning by doing** is the main aspect of our methodology.

We will provide several inputs, activities and moments for reflection, it is up to you to make the links with your own background. We have no expectation on what or how you should learn. This training is there for you to learn what you want to learn, to draw your own conclusions, so you can implement it after the training course is over.

By using this method we give you the stage where you can truly be **the creator of your own experience**.

**Springing from this main method we'll use other approaches:**

- **Embodied awareness**
- **Outdoor learning**
- **Peer learning**
- **Group coaching, confrontational coaching**
- **Learning by submerging**
