Call for participants EVS Short term

You are between 18 to 30 years old..

You are motivated to be a part of an **Intercultural project** in France..

We propose you to be part of our Project as a group of Short term volunteers.

During this full month of July you will enjoy the daily-life of different people from all around the world

They are 2 different objectives of this project :

- Every morning you will participate on **different workshop** (gardening, kitchen , construction, ...), The goals are to permit, to take really a part into the project of our organisation.
- Every afternoon with the support of 2 Long-Term Volunteers, You will make a pedagogical support linked to our different ecological installation and landscape that we have in our Place. This project is aiming to valorize our structure by creating different support, and **valorize your creativity**

Le Créneau is one of the regional delegations of **Solidarités Jeunes**. It is located in Montcombroux-les-Mines, in a rural area; and it has been acting for 20 years for social, educative and cultural local development. The goal of our association is to put together people from different social and cultural backgrounds to create mixité in order to learn how to live together, to know each other, and to exchange on their own experiences with respect and tolerance. Thereby, we work with a lot of local partners to valorise citizen actions.
