

# WHAT COMES NEXT?

Erasmus+ Training Course on  
Improvisation & Entrepreneurial mindset

5th – 13th February 2019  
(including arrival and departure days)

Kobuleti, Georgia

# Context

Being part of the dynamically changing labour market, the new generations of youth are facing different challenges nowadays, when they are at the start of their careers. New needs and structure of the labour market appeared while the structure of the formal education remained the same. Thus, sense of initiative, creativity and entrepreneurial mindset have become extremely important.

In this training course, we will tackle the topic of youth entrepreneurship, their first involvement and necessary soft skills in this field.

The aim is to introduce applied improvisation and empower youth workers to apply it to increase the sense of youth entrepreneurship. We will explore attitudes of entrepreneurship, such as taking risk, creativity, problem-solving, sense of initiative, working with mistakes and other essential skills for young people.

This will help to prepare young people to get successfully engaged with the labour market, perceive their life as from entrepreneurs' perspective, learn from each experience and take these into their local communities.

## Objectives

- to develop social skills, improve sense of initiative and entrepreneurship through applied improvisation
- to provide a space for sharing best practices focusing on using non - formal educational methods in the field of youth work
- to introduce Youthpass as a tool for self - assessment evaluation and recognition of non - formal learning
- to foster international cooperation between European, Caucasian and Eastern partnership regions and their neighbouring countries
